UPDATE

Re: Notes from phone conversation with Pam Schaner, CBI

On 1/13/03, I spoke with Pam Schaner at CBI, regarding the status of the Denver profiles (as delegated to me at the case planning meeting on 1/7/03). Schaner informed me that it was improper for me to contact her directly regarding the specifics relating to a profile, and that "I really need to speak to Denver about that". I further clarified with her that the process was for her to contact labs directly and for the labs to contact the investigators if there is anything to report.

End
